Total Annual Cost: No cost.

Privacy Act Impact Assessment: There are no impacts under the Privacy Act.

Needs and Uses: This information facilitates efficient interaction between premises owners and local exchange carriers (LECs) regarding the placement of the demarcation point, which marks the end of wiring under control of the LEC and the beginning of wiring under the control of the premises owner or subscriber. The demarcation point is a critical point of interconnection where competitive LECs can gain access to the inside wiring of the building to provide service to customers in the building. This collection also helps ensure that customer-end antennas used for telecommunications service comply with the Commission's limits on radiofrequency exposure and provides the Commission with information on the state of the market. In short, this collection helps foster competition in local telecommunications markets by ensuring that competing telecommunications providers can provide services to customers in multiple tenant environments.
